

[English translation of [Stassen letter to court submitted Dec. 7, 2025](#)

Note by Katherine Watt, Jan. 5, 2026 - The Amsterdam Court of Appeals received the 3-applicants' case appeal of Judge Werkema's Aug. 20, 2025 order denying applicants' request for provisional evidence proceedings after the Leeuwarden Court of Appeals recused itself due to conflicts of interest - some defense attorneys for defendants in the case, also serve as judges attached to the Leeuwarden Court of Appeals.]

Your Honor, Sir, Lady, In the case referred to above, I send you:

- A V6 form for submitting further documents
- A USB Stick containing the further documents, namely:

1. Video messages (with Dutch subtitles) to your court showing that the Covid-19 injections are indistinguishable from a bioweapon, from the following experts:

Sasha Latypova
Katherine Watt
Michael Yeadon
Joseph Sansone
Catherine Austin Fitts

2. Written expert reports showing that the Covid-19 injections are indistinguishable from a bioweapon, drawn up by:

Sasha Latypova
Katherine Watt
Michael Yeadon
Joseph Sansone

These written statements also contain a large number of hyperlinks, which is why they are supplied in the form of digital files.

This provides your Court of Appeal with legal and convincing evidence that the Covid 19 injections are in fact a bioweapon, which is also important in the case of the assessment of the admissibility of the action. It is of the of paramount social importance that the nominated experts be heard. The trial is not fair within the meaning of Article 6 of the ECHR as long as it is not precisely those experts put forward by the applicants heard before a judge. In view of the fact that it is of both procedural and social importance it is important that you take note of the information addressed to you as soon as possible.

Video messages, I also send them to you in the form of a download link. The importance of getting these video messages quickly also applies to the legal representatives defendants. These links are included below:
